WEDNESDAY, AUGUST 14.

ANNOUNCEMENTS.

WE ARE AUTHORIZED TO ANNOUNCE

HON. GEORGE E. HARRIS

AS A CANDIDATE FOR CLERK OF COURT OF APPEALS

SUBJECT TO THE ACTION OF THE DEMOCRATIC STATE CONVENTION.

OWENSBORO, KY., is to have a free delivery of the mails.

The Democratic majority on joint ballot in the coming Legislature will be 50.

JOHN ALLISON's majority in Muhlenberg, by official count, was 3.

Wickliff's 87, Hocker 12. Sharp 13.

The controller of the currency has authorized the State National Bank, of Frankfort, Ky., to begin business with a capital of \$150,000.

REPUBLICANS lost Representatives in Allen, Breckinridge, Boyle, Fleming, Grayson, Larcum, Muhlenberg and a Senator in the Tenth District.

On the 19 State Senators elected on the 5th, only 3 are Republicans.

What a lonesome time they will have at Frankfort next winter.

The returns so far, from the different counties indicate that Sharp's majority will not be less than 30,000.

and yet the Republicans faintly hoped to carry the state by their wholesale use of Dick Tate.

BELL COUNTY, the home of Mr. Colson, gave him a large majority of 450. In 1887 Bradley carried the county by 495. Colson's home precinct gave a majority of ninety to the Democratic candidate for the Legislature.

JUDITH W. F. BULLOCK, the great lawyer, educator and philanthropist, died at his home in Louisville, at 2:15 o'clock P. M., last Friday. He was in his eighty-third year. The funeral took place from St. Paul's church, sixth and Walnut streets, and the remains were interred in Cave Hill cemetery. He was one of the founders of the present school system of Kentucky.

We offer our condolence to our friends, Dan Tracy, James A. Rowe and Grace Williams. Pick your friends, boys, and try it again. You may yet be government store-keepers. No telling what may happen when you get older. Don't get mad and leave the Republican party just because you are not appreciated by the leaders. Then our town would be lonesome if you were to quit bawling around for the G. O. P.

We reported, in our last issue, Cole elected Coroner by 17 votes, so he was according to the reports given by the sheriffs of election. The official count showed this to be an error. Cole had been counted ten votes too many in Hartford and eleven too many in Boone. This gave Keown the county by 4. Several Democrats and Republicans watched the entire count by the board, and among the lookers on were Mr. Silas L. Stevens, who gained two votes by the official count.

MR. FELAND's family seem to be well pleased for. He is Collector of this district and his eldest son is first assistant collector and now Mr. Jolly has appointed Feland's second son as assistant District Attorney. There has been a question whether Jolly belonged to Kentucky or whether Feland belonged to Jolly. But it seems that Feland is "Boss of the Shanty" and the office seekers had better apply direct to Feland instead of Jolly as heretofore, if they want to be store-keepers or gaugers.

THE Kentucky Progress is now a thing of the past. It has an circulation of 81,000, in favor of W. C. Chapman administrator for Isaac Morton, led on Col. G. C. Shanks' half-interest. It seems that Mr. Morton was one of Col. Shanks' bondsmen at the time he failed as Sheriff and the judgment was obtained soon after the failure and has been kept alive and an execution was taken out about 3 weeks since, but was not executed till after the election. Yet Col. Shanks says that he has paid his bondmen more than they ever paid for him. This looks like he has, don't it?

### THE RESULT.

The signal Democratic victory in Kentucky at the late election has a weight and meaning not attached to ordinary elections. Ever since Dick Tate defaulted with the State's money the Republicans have thought they could carry the State for their party.

Acting upon the idea that the sin of Tate was the sin of the Democratic party, they have denounced Democratic administration from every nook and corner of the Commonwealth. Not content with political denunciation they have not hesitated, in many instances, to misrepresent and blacken records of individuals and individuals and individuals.

The campaign of misrepresentation, prejudice and partisanship overstepped its power and like a bonanza, recoiled on the head of its projectors. The people refused to be led by such practices, they informed themselves as to the accusations made and gave their opinion in telling tones on Monday, August 5. The people were satisfied with the Democratic administration of Gov. Buckner and official advisers. Wherever our beloved Governor went the people trusted his plain and truthful statements. They saw in him nothing of the Demagogue and full confidence in his integrity. The Democrats have gained several representatives and a Senator or two. The Republican representative to use the language of the next Governor of Kentucky in the next Legislature will be lonesome in his own originality. The result in Ohio county can not be called a very great victory. The precincts of Beaver Dam and Centertown gave largely increased majorities and had the county done its duty in other parts of the county the majority would have been at least 300. Enough Democrats stayed at home election day to have made that majority. Can the Democratic party of Ohio county expect to win many contests by such action? If they do they are very much mistaken. Ohio county is Democratic and ought to show their strength, but so long as her Democracy refuses to support their party candidates and party policy she will still be dangerously close and sometimes Republican. He said to the credit of those who did vote and work that the county ticket was the best ever given. The majorities were the very small quantities, 4, 24 and 58, not very large in a vote of 41 thousand, but better by far than none. The Republicans charged by the voters of the veteran Democracy of Louisville will make a lively fight for the county offices next year, but with a more united and earnest effort on the part of Democracy the next race need not be as close as the last. Let the Democratic profit by experience.

### KENTUCKY DEMOCRATS.

The Courier-Kentuckian this gives its approbation of the opinion of Kentucky Democrats.

There is nothing extreme in the Democracy of Kentucky, or in the Kentucky Democrats. They are true to sound economic principles. They are a thoughtful, reading people, embracing all shades of opinion, and the dominance of the intelligence of the State, and the assaults of which they are made the object in the Republican newspapers, are largely descriptive of the Republicans themselves. We are conservative or we are nothing. Demanding in the application of the organic law to the Government of the country the strict construction of the original chart, and in material affairs, that progress shall keep within the bounds of right, not, through pretence of development, designed to benefit the few at the expense of the many, be allowed to open artificial and dishonest short cuts to disproportionate wealth, and the robbery of the public. We are equally against any tariff scheme, and every other scheme of money. In most things we think old ways are best, taking little stock in new-fangled notions, arithmetic and morals; as that a man may either himself risk if he only studies any science, but we are every day lifting himself to the skies by his own wits, and if he can bring himself to believe in Dr. Bradley's faith-cure.

### A DAY AT CAMP GRAYSON.

We had the pleasure of spending Sunday at Grayson Springs, where the soldiers are encamped. The crowd of visitors had materially increased since it was announced that the encampment would be at Grayson Springs. A military uniform and paraphernalia are winning cards at a summer resort.

Adjutant General Hill came down from Frankfort a day or two in advance with tents, commissary stores, etc., and was ready to receive the soldier boys when they arrived. The following companies

MAJORITIES.

Colson 49, Keown 58, Sharp 94.

Total vote of county 4430.

CONSTITUTIONAL CONVENTION VOTE.

No, entitled to vote 4553.

No, voting for convention 2792.

Carried by 1761.

Attest: THOMAS J. SMITH, Clerk.

By JNO. P. COLEMAN, D. C.

are in the encampment:

Company C, of Owensboro; Capt. S. H. Ford commanding.

Company A, of Bowling Green; Capt. E. H. Wall commanding.

Company B, of Owensboro; Capt. J. S. Whitcomb commanding.

Company D, of Hartsville; Capt. J. H. Henry commanding.

Company H, of Mayfield; Capt. H. H. H. commanding.

Company I, Second Regiment, of Shelbyville; Capt. J. H. Pennington commanding.

A part of Company G, of Owensboro, accompanies Company I.

The Louisville Drum Corps are engaged during the encampment.

Gov. Buckner arrived Sunday morning and took up quarters in camp, not far from where Gen. Hill has headquarters. The dress parade and drill in the afternoon was witnessed by several hundred people, many coming from the adjoining county for miles to see the soldiers. Gov. Buckner enjoys camp life and is a great favorite with the "soldier boys." Adjutant Gen. Hill is the same courtly, obliging gentleman that so marks him in every day life. It was our pleasure while there to meet several prominent political leaders, all of whom were warm in their praise of Gen. Hill, and more than one predicting that he would be the next Congressman from the Fourth Congressional District. And it may be said, with Gen. Hill in Congress Kentucky would lose none of her glorious record.

The Governors Ball was postponed from Monday night to Friday night, when beautiful girls and gallant soldiers will grace the ball room in honor of Kentucky's worthy Governor.

There are about three hundred guests now at the Springs, the soldiers being the principal attraction of the week.

ACLEAR MISCALCULATION OF 151.

The Louisville Times says: "The 151,000 Republicans of Kentucky elected one to office yesterday—Coroner of Christian county. But even in this instance, the Republican majority fell off 1,200 to 150."

THEIR WORK.

The next Legislature will have some little work of much importance to do, and those who are elected to that body should have their ideas pretty well formed on some of the questions ever before the Legislature meets. Of course there will be the usual amount of railroad legislation and inexperienced legislators will endeavor to control by law what competition and the natural course of trade and exchange alone can control. The work of electing a United States Senator need not require much time from the body. The subject of securing a parlor hall will likely take its turn through the Kentucky Legislature as it has through that of many other states. One very important question will come up for disposal passing a bill providing for Constitutional Convention. On this subject the Constitution says: "The General Assembly, at their next session, shall pass a law calling a Convention, to consist of as

Prevention of Typhoid Fever.

OFFICE OF THE STATE BOARD OF HEALTH, BOWLING GREEN, KY., Aug. 15, '99.

To the Health Officers and People of Kentucky.

This Board desires to call the earnest attention of those who have authority and people to the gradually increasing prevalence of, and mortality from typhoid fever, and to the growing importance of a constant resort to the methods which modern scientific research has suggested for the prevention of this disease.

These preventive measures are of the most importance to the State because directed against a disease especially prevalent and fatal amongst persons in the prime of life, who contribute most to the public wealth and prosperity.

It is the duty of the State to protect its people from the loss of time and money, the feature of it probably least thought of by most people, the importance of this disease can scarcely be overestimated. Statistics show that ten persons are sick for every one that dies of this disease, and to say nothing of the cash value to the State of those who die every year, and it is conceded that the State has no more valuable property than that represented in the vigorous population, the loss of time and money, and the necessary cost incurred in the treatment of this disease, make an annual tax upon our people of startling proportions.

Typhoid fever is probably the most preventable of all diseases, not even excepting small-pox. It is now known that, like cholera and dysentery, the germ or specific cause of this disease is contained in the discharges from the bowels of those sick of it, and that while the disease is in progress the poison into the system are possible, it most generally gains entrance through the medium of an infected water supply—usually the use of well water polluted by fecal matter. This may be direct, from drinking such water, or indirect, as by using milk or other articles of food or drink from cans or vessels washed in it. Ice, from an infected source, is also dangerous, since it has been proven that freezing does not destroy the infective principle.

While water from all sources of supply is liable to contamination, well water is especially so, whether located in city, town, summer watering place, or country. Thus eight of three hundred and fourteen cases occurring in Louisville in 1902, two hundred and ninety cases in the city of Cincinnati, and the fatal cases of this disease in the United States are occasionally. In the most famous epidemic at Plymouth, Pennsylvania, involving the sickness of 1,000 persons, the death of 14, and an actual output in money of \$67,000, the outbreak was traced to the use of water polluted by the fecal discharges of one imported case of the disease. Facts no less convincing might be multiplied indefinitely if space permitted. In a smaller way they are common in the experience of most physicians in active practice.

Usually the wells are sunk near the kitchen, and in dangerous proximity to the privy and other sources of contamination. The well draws its supply from an inverted cone, having its apex at the bottom of the well and its base at the surface of the ground. In dry seasons this well base is often extended until this well becomes a receptacle for the more or less perfectly filtered filth from all sources found in the average back yard, and the water, often sparkling in its apparent purity, becomes a culture fluid for any disease germs finding their way into it.

Two methods of prevention, having

THE

NEWVILLE ITEMS

The ice cream supper at the residence of Dr. Rhoads last Saturday night was a grand success. There was a large crowd in attendance and everybody enjoyed themselves.

Did the 6th inst. Mr. W. S. Morgan, Miss Lettie Henry has gone to Henderson to attend school this fall.

Miss Flora Ross, of Hartford, has been elected to the position of Miss Annie Cross for the next week.

Before I close my items, allow me to say a few words more especially regarding the Livernore present during the election. This instance is one which the Democrats should be proud of. The precinct has always gone Republican by a majority of 25 to 50 until the last election when it turned for Democracy, and gave a Democratic majority of 20 to 30. Murray's friend Davis county elected the Democrat candidate for magistrate by a majority of between 65 and 100, and Ohio county, which has been going Republican for several years, elected every Democrat candidate except one, and had that one been confined to the county, he would have been elected by a handsome majority, and now the question arises, why should not Democracy be proud? And now in conclusion, if every Democrat will only keep his hands off the ballot, and the Democracy should be talked, we will certainly elect the next President of the United States, R. H.
